

I. **Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (Currently Amended): ~~An incendiary comprising:~~ A flexible belt incendiary feedstock for an incendiary dispensing machine, said flexible belt incendiary feedstock comprising:

a plurality of containers, each container containing a volume of a first substance, which, when mixed with a second substance injected by said incendiary dispensing machine, reacts exothermically; and,

~~one or more~~ respective flexible frangible couplings which couple said plurality of containers together.

Claim 2 (Currently Amended): The incendiary feedstock according to claim 1 wherein said frangible couplings couple said containers side-by-side.

Claim 3 (Currently Amended): The incendiary feedstock according to claim 1 wherein said frangible couplings couple said containers serially in a line.

Claim 4 (Canceled)

Claim 5 (Canceled)

Claim 6 (Currently Amended): The incendiary feedstock according to claim 1 wherein each container is provided with a substantially flat surface.

Claim 7 (Currently Amended): The incendiary feedstock according to claim 6 wherein each container comprises a receptacle which opens onto said flat surface.

Claim 8 (Currently Amended): The incendiary feedstock according to claim 7 wherein each container further comprises a seal which extends across said flat surface to close said container.

Claim 9 (Currently Amended): The incendiary feedstock according to claim 8 wherein said seal is in the form of a strip of material which seals adjacent containers and couples said adjacent containers together to thereby act as said ~~one or more~~ frangible couplings.

Claim 10 (Currently Amended): The incendiary feedstock according to claim 1 wherein each frangible coupling is in the form of a tab connected on opposite sides to respective adjacent containers.

Claim 11 (Currently Amended): The incendiary feedstock according to claim 1 wherein said frangible couplings are formed integrally with said containers.

Claim 12 (Currently Amended): The incendiary feedstock according to claim 6 wherein said frangible couplings are formed integrally with said flat surfaces.
